FIGHT WHITE PLAGUE

Committee Compiles Figures on Prevention Methods.

SUPPORTS BILL NOW PENDING

Points Out that District Has No Law Compelling Registration of Consumptives and Providing for Sequestration—War is Not Against Patients, but Against the Disease.

Members of the local medical societies yesterday received copies of a new report treating on the subject of reducing the local death rate from tuberculosis. The report had been prepared as a study by the committee on the prevention of consumption, and is issued as the result of an investigation as to fundamental means of reducing the death rate from this disease.

The District has no law to prevent the spread of tuberculosis, and it is suggested that the report affords timely support for the bill recently proposed by the District Commissioners for the compulsory registration of consumptives, the free examination of sputum, and the disinfection of rooms in which consumptives have lived. The committee having this matter in charge began three years ago to work toward its present position in favor of compulsory registration and the free examination of sputum.

After correspondence with the 35 largest cities of the country, the committee learned that 33 have laws for compulsory registration. Of the 20 largest cities in the United States, having altogether a population of 11,971,406, 16 cities, containing 10,552,081 people, have compulsory registration laws, while only 4 of these, including Washington, with a population of 1,018,225, have no such laws. The report sets forth that the case for free examination of sputum is ever stronger, that it is made free of charge in all cases by the health authorities of 60 cities, while in 3 others the service is limited to indigent applicants.

Specific replies from forty cities prove conclusively that the reports are kept private. The investigators would then have direct supervision of the work, compelling the use of good vehicles, and designating dumping grounds.

RAILROADS WANT SMOKE LAW.

Officials Said to Be Urging Passage of Present Bill.

By the provisions of a bill, which the railroads themselves are urging, the smoke law will be so amended, if passed, as to apply to all steam locomotives in the District of Columbia. House bill 9229, giving the railroads additional facilities around the new Union Station, passed by the House last session, which, by amendment, applies the smoke law to all steam locomotives of any description in the District of Columbia after January 1, 1908, is to be considered and may be passed by the Senate at the present session. The railroads, it is understood, are endeavoring to secure its passage.

Commissioner Macfarland has held several conferences with the members of the Senate and House Committees on the District of Columbia, and is hopeful that favorable action will be taken at the present session.

Southern's Palm Limited
To Florida and the South, via Southern Rwy., will be inaugurated, first train leaving Washington 6:15 p. m. Jan. 7, 1907. This train will stop at several points and service the Palm Limited of last season. Excursion rates now in effect to the South's many winter resorts. Offices 706 15th st., and 511 Pa. ave.

MONEY FOR GARBAGE WORK.

Commissioners Will Ask for Extension of Present Service.

Upon recommendation of Supt. John T. Twohey, of the street cleaning department, Commissioner West yesterday moved that the Commissioners bring to the attention of the House and Senate Committees on Appropriation a bill relating to the collection and disposal of ashes and miscellaneous refuse from business places, hotels, and apartment houses, and that an appropriation of \$15,000 be asked for the work.

Under the present contract such refuse is removed from private residences, boarding and lodging houses, with not to exceed twenty-five rooms and apartment houses with not to exceed four families, and the appropriation is needed to extend the service.

In a report on the subject Supt. Twohey says: "It would undoubtedly be desirable to have ashes and refuse from all such places collected and disposed of by contract, as the District would then have direct supervision of the work, compelling the use of good vehicles, and designating dumping grounds."

MONEY FOR CONSUMPTIVES.

Citizens' Committee Seeks but \$500 to Fight Disease.

The committee on the prevention of consumption has succeeded in raising only \$300 out of the \$3,380 that is required to carry on its philanthropic work. This leaves \$2,477 to be subscribed.

The committee is urging the people of Washington to consider the matter in its economical as well as humane aspect. It says, when it is remembered that there were 826 deaths from consumption in Washington last year, that about 5,000 consumptives are living in the city, and that this disease costs the community about \$6,000 each day, or \$2,000,000 a year—allowing \$1 for loss of wage, and \$1 a day in living expense—it will be seen that it is the greatest economy to cut down this death rate and expense by the vigorous educational and constructive work, such as the citizens' committee has outlined.

The treasurer of the committee, Gen. William H. Foreword, acknowledges the following contributions which have recently been made to the fund, which must be raised to meet the expenses of this work during the present season:

Miss K. F. Dickinson, Sec. E. S. Steele, 50c; Certificate Division, Postoffice Bldg., \$5; Dr. J. Dudley Morgan, \$5; Mrs. Francis C. Gordon-Cummins, \$5; Mrs. Sarah McC. Spofford, \$2; Admiral Philip Hildren, \$5; Mrs. Joseph E. Thorpe, \$5; Mrs. Grace D. Kendall, \$5; Cash, \$5; Dr. George M. Kober, \$5; Mrs. Mary C. Gamett, \$5; John A. Baker, \$5; Mrs. Ellen R. Greene, \$5; Mrs. Lucy M. Hewitt, \$5; Miss Fannie Fisher, \$2.50; Gen. and Mrs. George L. Andrews, \$5; Dr. William C. Rives, \$5; Mrs. Margaret Clark, \$5; Fred S. Hardesty, \$5; Miss Georgia Roberts, \$5; Prof. A. Osmund, \$5; Mr. and Mrs. Joel Hillman, \$5; Frederick L. Coville, \$5; Mrs. C. H. Sprague, 50c.
